

STRIVE Partnership Framework (SPF)

With [school/organization name]

STRIVE Goals

1. Improve socio-emotional regulation for children and improve student-teacher interactions
2. Integrate a cultural lens that acknowledges inequities in exposure to adverse childhood experiences, in order to create inclusive learning environments for students
3. Promote trauma-sensitive school environments by leveraging existing data and coordinating partnerships to build institutional capacity of public schools that serve minority and disadvantaged youth

Purpose

The purpose of the STRIVE Partnership Framework (SPF) is to develop understanding, agreement, and accountability between STRIVE and [school/organization name] for a successful partnership. Our collective work to maximize child, family, and community well-being is extremely needed and deeply complex. To succeed, we hope this framework will unite us in successfully supporting the unique needs of young children who have been impacted by trauma exposure.

STRIVE offers 1-day trainings, 2-day educator workshops, and our full STRIVE model. The SPF is specifically used for 1-day and 2-day offerings.
