

Good morning,

I am writing with an urgent plea to help stop the imminent termination of Temporary Protected Status (TPS) for Haiti.

As you may be aware, the Department of Homeland Security has appealed Judge Ana Reyes' decision that temporarily blocked the deportation of more than 500,000 law-abiding, hardworking TPS holders. In addition to the appeal, DHS has requested that the court pause the judge's ruling, a move that would immediately strip TPS recipients of their work authorization and place them at risk of immediate deportation—forcing many to return to life-threatening gang violence and instability in Haiti.

The termination of TPS for Haiti would be catastrophic.

Its impact extends far beyond the Haitian community. It would deeply harm:

U.S. citizen families, including elderly parents and individuals with disabilities who rely on TPS holders for daily care;

Employers across multiple sectors, including healthcare, construction, hospitality, transportation and childcare, who depend on the TPS workforce; and

Local and national economies, already strained by labor shortages and instability.

This is why **Congressional action is critical right now**.

There is a **discharge petition** before the House that can stop this outcome. We need **218 signatures** and are currently at **132**. With urgent outreach this week, we can reach the threshold.

Please take action today:

Call your House Representative

Urge them to **sign the discharge petition**

Ask them to **encourage colleagues from both parties to do the same**

U.S. Capitol Switchboard: (202) 224-3121

One call can make a difference.

This is a **bipartisan effort**, and we strongly urge outreach to Members of **both parties**.

We need **you** to help tip the balance toward justice—before it's too late.

Thank you for acting with urgency.

The link below shows the current list of signatories so you can focus your calls on those who have not yet signed.

Dr. Geralde Gabeau
